

About us

Nixon International is an international trading company specializing in agricultural commodities, food ingredients, and large-scale industrial projects.

With extensive experience in global trade, we connect reliable producers with manufacturers, distributors, and industrial buyers across international markets. In addition to agricultural trading, our expertise extends to industrial development projects, engineering cooperation, and strategic commercial partnerships.

Our mission is to build long-term business relationships by delivering dependable sourcing, transparent trade practices, and efficient supply chain solutions.

Why Nixon International?

We collaborate with trusted suppliers to ensure stable and consistent product availability.
Every shipment is sourced and supplied according to international quality standards and customer requirements.
Our experienced team is committed to providing responsive communication and reliable service throughout every stage of the trading process.

Barley
at a Glance

Barley is an important cereal grain widely used in animal feed, food production, and industrial processing. Feed barley is particularly valued as a source of energy and nutrients in livestock and feed formulations. We supply barley from reliable sources according to market and customer requirements.

Barley
SUPPLY & TRADE SOLUTIONS

Nixon International supplies barley for feed, food, and industrial applications through established sourcing channels and trusted trading partners.

We offer flexible supply arrangements based on customer requirements, with different origins, volumes, and delivery options available under internationally recognized Incoterms, including EXW, FCA, FOB, CFR, CIF, CPT, and CIP.

From sourcing and documentation to transportation and delivery, our team supports buyers with practical trade solutions and flexible commercial terms across Central Asia and neighboring markets.
