

About us

Nixon International is an international trading company specializing in agricultural commodities, food ingredients, and large-scale industrial projects.

With extensive experience in global trade, we connect reliable producers with manufacturers, distributors, and industrial buyers across international markets. In addition to agricultural trading, our expertise extends to industrial development projects, engineering cooperation, and strategic commercial partnerships.

Our mission is to build long-term business relationships by delivering dependable sourcing, transparent trade practices, and efficient supply chain solutions.

Why Nixon International?

We collaborate with trusted suppliers to ensure stable and consistent product availability.

Every shipment is sourced and supplied according to international quality standards and customer requirements.

Our experienced team is committed to providing responsive communication and reliable service throughout every stage of the trading process.

Corn

at a Glance

Corn is one of the world's most widely traded cereal grains and an essential raw material for the food, feed, and industrial sectors. It is primarily used in animal feed production, food processing, starch production, and various industrial applications.

Corn

SUPPLY & TRADE SOLUTIONS

Nixon International supplies corn through reliable producers and trading partners, supporting buyers across the feed, food processing, starch, and industrial sectors.

We provide flexible sourcing and delivery solutions based on volume, origin, application, and destination requirements. Available trade terms may include EXW, FCA, FOB, CFR, CIF, CPT, and CIP, depending on the transaction.

Our commercial and logistics support covers sourcing, documentation, transportation, and delivery, helping customers maintain a reliable supply chain across Central Asia and neighboring markets.
