About us

Nixon International is an international trading company specializing in agricultural commodities, food ingredients, and large-scale industrial projects.

With extensive experience in global trade, we connect reliable producers with manufacturers, distributors, and industrial buyers across international markets. In addition to agricultural trading, our expertise extends to industrial development projects, engineering cooperation, and strategic commercial partnerships.

Our mission is to build long-term business relationships by delivering dependable sourcing, transparent trade practices, and efficient supply chain solutions.

Why Nixon International?

We collaborate with trusted suppliers to ensure stable and consistent product availability.
Every shipment is sourced and supplied according to international quality standards and customer requirements.
Our experienced team is committed to providing responsive communication and reliable service throughout every stage of the trading process.

Canola
at a Glance

Rapeseed, also known as canola in certain markets, is an important oilseed used primarily for vegetable oil production and animal feed. Its seeds provide valuable oil and protein, making it an essential raw material for food, feed, and processing industries.

Canola
SUPPLY & TRADE SOLUTIONS

Nixon International provides rapeseed, rapeseed meal, and rapeseed oil through established producer relationships and international trading networks.

We support industrial buyers and processors with tailored sourcing solutions, flexible volumes, and multiple delivery options under internationally recognized Incoterms, depending on product requirements and destination.

Our team manages the commercial and logistical aspects of each shipment, from sourcing and documentation to transportation and final delivery across Central Asia and neighboring markets.
