About us

Nixon International is an international trading company specializing in agricultural commodities, food ingredients, and large-scale industrial projects.

With extensive experience in global trade, we connect reliable producers with manufacturers, distributors, and industrial buyers across international markets. In addition to agricultural trading, our expertise extends to industrial development projects, engineering cooperation, and strategic commercial partnerships.

Our mission is to build long-term business relationships by delivering dependable sourcing, transparent trade practices, and efficient supply chain solutions.

Why Nixon International?

We collaborate with trusted suppliers to ensure stable and consistent product availability.
Every shipment is sourced and supplied according to international quality standards and customer requirements.
Our experienced team is committed to providing responsive communication and reliable service throughout every stage of the trading process.

Soybeans
at a Glance

Soybean is a highly versatile agricultural commodity and an important raw material for the food, feed, and oil industries. It is widely used in animal feed production, vegetable oil processing, and food manufacturing. Our soybeans are sourced from reliable origins to meet the requirements of different industrial and commercial applications.

Soybeans
SUPPLY & TRADE SOLUTIONS

Nixon International supplies soybeans, soybean meal, and soybean oil through a network of trusted producers and trading partners across key agricultural markets.

Our supply solutions support food manufacturers, feed producers, oil processors, and industrial buyers, with flexible sourcing, contract structures, and delivery options under internationally recognized Incoterms.

We coordinate sourcing, documentation, logistics, and delivery according to customer requirements, supporting trade across Central Asia and neighboring markets, including Kazakhstan, Russia, Turkey, Uzbekistan, and other destinations.
