

About us

Nixon International is an international trading company specializing in agricultural commodities, food ingredients, and large-scale industrial projects.

With extensive experience in global trade, we connect reliable producers with manufacturers, distributors, and industrial buyers across international markets. In addition to agricultural trading, our expertise extends to industrial development projects, engineering cooperation, and strategic commercial partnerships.

Our mission is to build long-term business relationships by delivering dependable sourcing, transparent trade practices, and efficient supply chain solutions.

Why Nixon International?

We collaborate with trusted suppliers to ensure stable and consistent product availability.

Every shipment is sourced and supplied according to international quality standards and customer requirements.

Our experienced team is committed to providing responsive communication and reliable service throughout every stage of the trading process.

Sunflower Seed

at a Glance

Sunflower is a major oilseed crop widely used in food production, vegetable oil processing, and animal feed. Sunflower seeds are valued for their oil content and nutritional profile, while their processed products serve a broad range of food and feed applications.

Sunflower Seed

SUPPLY & TRADE SOLUTIONS

Nixon International supplies sunflower seeds, sunflower meal, and sunflower oil to food, feed, and processing industries through reliable international supply channels.

We work with buyers to arrange suitable origins, volumes, packaging, and delivery terms, with internationally recognized Incoterms including EXW, FCA, FOB, CFR, CIF, CPT, and CIP available depending on the transaction.

Our flexible commercial approach and coordinated logistics help ensure reliable supply and efficient deliveries across Central Asia, Russia, Turkey, Uzbekistan, Kazakhstan, and other regional markets.
